

With SEVEN years' experience scoring over 20,000 CDP disclosures globally and conducting more than 1,400 performance review calls, ADEC Innovations (ADEC) has unique, proven capabilities to improve your company's CDP performance\*. Our CDP consultants lead you through the entire process and help you choose the services that are best for your business.

### ROAD TO LEADERSHIP

With this service, you will have a roadmap that provides a tailored strategy with specific actions and timelines for your organization to implement in order to be recognized as one of the highest performing, leading CDP-disclosing companies. As part of this service, ADEC will:

- identify gaps on your most recent CDP Climate Change or Water response
- help you develop a multi-faceted path to reach the Leadership Band

ADEC provides a written report and timeline detailing specific actions your organization should take for the next three reporting years to get you on the path to receiving a CDP score in the Leadership Band.

### GAP ANALYSIS OF 2017 DISCLOSURE

As a Supply Chain responder, you will receive an in-depth analysis that identifies areas and activities that correspond with lost points, and recommends activities to improve performance on your climate change and/or water disclosure. For every CDP question, ADEC will identify:

- points achieved and not achieved in your 2017 disclosure
- potential reason(s) that maximum points were not achieved
- actions necessary to achieve additional points in 2018

ADEC generates a written report that outlines each question in tabular format so you can easily copy and place the results into a workflow template or spreadsheet if desired.

### 2018 SCORING ASSESSMENT

Before you submit your 2018 response, ADEC runs your completed questionnaire through the CDP scoring process ahead of your submission, providing question-level suggestions for improvement.

ADEC develops a written, pre-scored review report of your completed 2018 CDP questionnaire draft prior to submission. ADEC offers two levels of Scoring Assessment for your convenience:

	FULLSCORING ASSESSMENT	BASIC SCORING ASSESSMENT
For questions where points were lost, an estimate of the number of points that were lost (question-by-question)	✓	✓
Explanation of why points were lost (question-by-question)	✓	✓
Specific suggestions for improving each answer to achieve maximum points (question-by-question)	✓	
Estimate of overall points awarded by level (Disclosure, Awareness, Management, Leadership) and scoring category	✓	
Estimate of overall score	✓	
Call to review the results and answer any questions	2 hours	45 minutes

### RESPONSE CHECK

Response Check is a high-level checking service where ADEC provides a report on the completeness rather than the quality of content, such as: incomplete or missing information; answers provided in an inappropriate place or format; data points that should be addressed; misdirected or misunderstood responses; and priority areas in the scoring.

Using this report, you will be able to make any further revisions necessary to maximize your CDP performance.

Most clients opt for the Scoring Assessment service to get a more comprehensive review of their submission.

## 2018 CDP CLIMATE CHANGE QUESTIONNAIRE COMPLETION

Many companies look to ADEC to complete their Climate Change disclosure to CDP in order to free internal resources for more strategic work. This process is directed by you and your data, but managed by our expert data analysis and sustainability specialists team. ADEC assists you in determining the areas of priority and helps to improve your responses to these questions to ultimately improve CDP performance. Based on your needs, ADEC develops a service level within your organization's budget:

- Section- or Question-Specific Service: ADEC helps you complete specific questions and then conducts a question-by-question review of the entire questionnaire, indicating areas where points were lost, why, and suggestions for improvement
- Comprehensive Disclosure Completion: ADEC works either remotely or onsite to complete your entire CDP questionnaire, and enters that information into CDP's Online Response System (ORS)

ADEC ensures that your CDP response maximizes CDP performance and accurately reflects your climate change achievements, progress and processes. Based on the services selected, ADEC enters your CDP response directly in the ORS – and all you have to do is simply click the 'Submit' button.

## 2018 CDP WATER QUESTIONNAIRE COMPLETION

Due to the local and fragmented nature of water, managing water risks is particularly complicated, which is why companies turn to ADEC to help them gather the needed data and information to complete the questionnaire. By working with ADEC, you can feel confident that your water use and reduction strategies are accurately reflected in your disclosure, in order to maximize CDP performance. ADEC will:

- complete the data analysis necessary to report water use
- work with you to develop multi-year targets for water reduction
- assist you with questionnaire completion

ADEC ensures that your response maximizes CDP performance and accurately reflects your achievements, progress and processes. Based on the services selected, ADEC enters your CDP response directly in the ORS – and all you have to do is click the 'Submit' button.

## PREMIUM AND PREMIUM+ PERFORMANCE REVIEW

ADEC's CDP Premium and Premium+ Performance Review service provides key insights and analytics on your Climate Change or Water score. With a Premium or Premium+ Performance Review, you will gain key guidance and insights to help you determine the changes that will enable you to improve future CDP submissions.

	BASIC	PREMIUM	PREMIUM+
Basic report explaining your score and comparing your overall and category-level scores to your region, CDP program, and industry activity group averages	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Interactive, enhanced report with visualizations on your score improvement potential in each category, and a scatterplot of how companies in your industry activity group are scoring		<input type="checkbox"/>	<input type="checkbox"/>
Recommendations per scoring category	1	3	4
Call with a trained ADEC consultant to review your performance	20 minutes	45 minutes	75 minutes
Written report with your specific recommendations			<input type="checkbox"/>
Languages available for call	English	English, Chinese	English, Chinese

## ON DEMAND SUPPORT

ADEC can also provide 'on-demand' sustainability services, which your company can use, as needed, throughout the year. Think of this as the place where you can 'ask ADEC' to help on a wide variety of topics. Working with our internal staff and our partner network, we can help you with virtually any question you have.

## OTHER SERVICES ADEC CAN OFFER

Through our own staff, or with our network of partners, ADEC can also offer help with:

- GHG Inventory
- Scope 1, 2 and/or 3 data collection
- Software Solutions
- Science Based targets
- Life Cycle Assessments
- Energy Audits and Energy Reduction Initiatives

\*In accordance with CDP's conflict of interest policy, ADEC does not provide official scoring services for any of our CDP consulting clients.
